

Biotopia - Progress Biology Club

The purpose of the club is to provide a community for students interested in the biological sciences to gather and exchange ideas and to learn more about our field of interest. The club provides members with many benefits:

- promote interest in biology
- Regular meetings.
- Guest speakers to provide useful insight to club members.
- Social events for club members to gather and have fun.

The club does not discriminate on the basis of race, color, religion, disability, national origin, sex or age.
